

# JUST THE FACTS

**787,000** persons in the U.S. are registered. Adding in family can triple the number who live with registration rules and restrictions.

**97%** of child sexual abuse is committed by people the children know and trust—often family members and peers.

**1/3** of sexual assault against minors is committed by other MINORS.

**3.5%** of registrants were convicted for a new offense, the **LOWEST REOFFENSE RATE** of all categories of crime except for murder.

**0%** evidence supports the effectiveness of registries in accomplishing their stated goals. They do NOT make communities safer; some studies show they actually make communities less safe.
